Clinical resources at work for you

STAFFING FOR YOUR BUSINESS NEEDS

What sets Dunson & Associates apart from the competition is its gem of highly qualified professional Clinical resources—from across the United States—who are readily deployable to provide business solutions for our Healthcare Industry clients.

Dunson's nationwide Clinical associates are premium because of our recruiting practices and tools. The knowledge of our recruiters enables them to effectively screen and place the right person on the right jobs.

Also, to guarantee we are matching the right people with the right project, our recruiters administer nationally validated competency testing to our Clinical associates which determine healthcare professional's skill and qualification and their capacity to utilize and apply their knowledge to deliver safe and effective patient care.

Additionally, our recruiters use the WorkPlace BigFive (WPB5) tool, which generates a report that fit estimates on 54 performance competencies including leadership, integrity, critical thinking capabilities, comfort with change, motivation of others, and teamwork—among others.

Flexible solutions for your business needs

CONSULTING PROVIDES A TOTAL END TO END SOLUTION

At the heart of Dunson & Associates are Clinical and Allied professionals who are experts in their fields. Our associates' varied experiences and education brings years of professional knowledge, providing years of experience to get the job done from beginning to end.

HEALTH IT SOLUTIONS

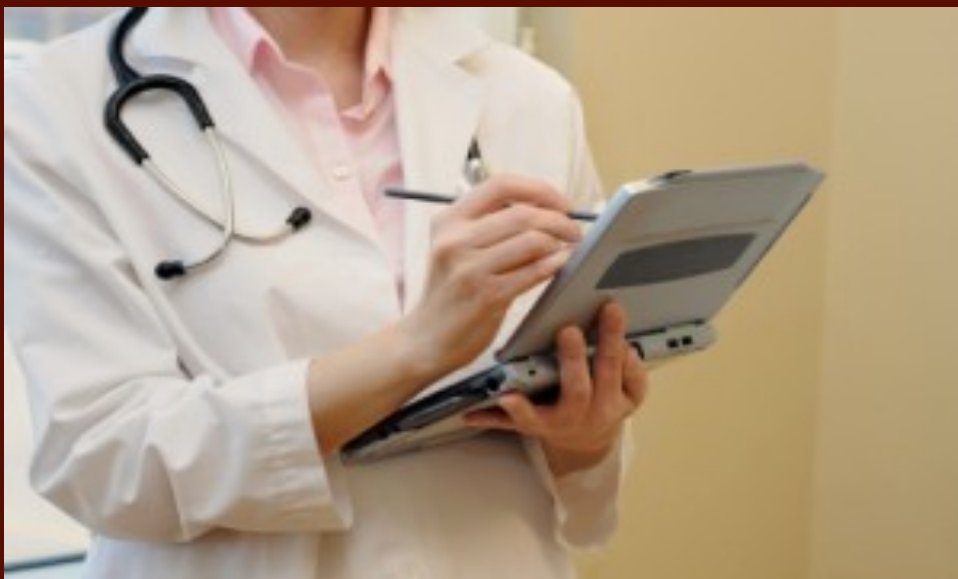

One of Dunson & Associates' core competencies is Health IT. We focus on project managing systems implementation and integration of technology programs in an effort to improve the effectiveness and quality of health care delivery.

Dunson & Associates assists organizations with complete end-to-end systems planning, acquisition, customization, implementation and maintenance including training, technical and operational support .

E-BUSINESS SOLUTIONS

Diverse Specialties

Unique to Dunson & Associates are its IT experts of diverse specialties that provide HL7 solutions, business and technology solutions on the major ERP platforms (e.g., SAP, Oracle, and PeopleSoft) and other enterprise solutions, including SCM and CRM, as well as e-Business solutions across technology platforms.

ENTERPRISE MANAGEMENT SERVICES

From our national database of Health IT and Clinical professionals, we join associates together as a team to provide a broad spectrum of e-business solutions and outsourcing to customers needing sustainment, training, integration, and implementation of electronic health records (EHR) or clinical information systems. Through this capability we connect healthcare organizations to information management solutions and people resources to achieve their financial, operational and managed care goals.

APPLICATION MANAGEMENT

With diversity, Dunson & Associates can offer an "a la carte" of commodities transitioning from the selection, design and installation, implementation, and customization of EHR technology and other information management systems to achieve best practice standards of care in preventive health and disease management , as well as training in work flow processes across all clinical settings.

Through one of our teaming partnerships, Dunson can offer ambulatory medical practices a state of the art Electronic Medical Records (EMR) system called the [Accelerator](#). This system uses a unique graphical interface and natural language generator that sets the product apart from the competition. It was designed to be used with a lightweight personal computer tablet, but will work on desktops/ laptops as well.

From Health IT people resources to EHR technology and health information management solutions, Dunson stands unique and diversely positioned to meeting the varied needs of the Health IT industry.
